

Boy Scout Troop 1054 Peshtigo, Wisconsin

Dear Parents:

This year as in past years, we are participating in the popcorn sale. Remember that this is the main fundraiser that we participate in every year for the Troop. It is very costly to offer the programming that we do. We don't have weekly meeting or yearly dues and what we charge for a weekend or an outing doesn't even come close to covering the costs of that weekend. This is how we fund all that we do as a troop.

We will be having the show and sell day Saturday, September 29th from 9:00 – 2:30. The boys need to make sure that they have their class A uniforms. Each of the boys who return the slip will also be receiving product that day that they will take home for the show and sell. The product that we are selling is pictured on the back of this flyer. We need several adult volunteers to help make this sale day successful. If you are able to help us that day, please let Mrs. Miller know ASAP as we need to plan accordingly.

The take-order sale dates are September 29 – October 16th. The boys may take orders only during those dates. Money should be collected when the order is placed. Checks should be made payable to Boy Scout Troop 1054. All take order forms and money must be turned in to Mary Miller or be given to Mr. Schroeder at our scout meeting that night or previous to that date.

Popcorn delivery is Saturday, November 9th. All orders need to be picked-up that day from Mrs. Miller at 2021 15th Avenue Menominee, MI. Her telephone number is 863-7077.

If you have any questions about the sale, you may contact Mrs. Mary Miller or Mr. Schroeder. Please return the permission form by Tuesday, September 25th scout meeting.

Thank You!

My son _____ has permission to sell popcorn for Boy Scout Troop 1054. I understand that we will get some items that we will show and sell and that he can take orders for the rest. Money should be collected at the time of sale and orders must be picked-up by me on November 9th.

Trail's End Introduces the First Microwave Popcorn with No Diacetyl Flavoring

New Popcorn Flavoring Features Same Great Buttery Taste

Trail's End Popcorn has become the first microwave popcorn to eliminate the flavoring ingredient diacetyl from its microwave popcorn products.

Diacetyl is used in butter flavorings found in many other brands of microwave popcorn, as well as in many pastries, cake mixes, flour, cookies, crackers, frozen foods, potato chips, and candy.

Although diacetyl has long been considered safe for use in consumer food products, the flavoring has been cited as a possible source of injury to certain employees of food companies who may have inhaled large dosages of diacetyl while mixing it under unsafe conditions.

At Trail's End, our associates follow strict safety guidelines in the manufacturing of our products, so we have had no incidents related to diacetyl exposure.

However, since consumers are increasingly concerned about this issue, we have removed it from our flavorings. It was a challenge to eliminate diacetyl from our flavorings and still maintain the great buttery taste that consumers love, but we did it. Consumer research substantiates that our new flavoring features the same great buttery taste that Trail's End consumers love.

We're proud to take an industry-leading role in eliminating diacetyl from our flavorings. Since popcorn is our only product, we strive to improve our understanding of the needs and wants of popcorn consumers and to be the best company in meeting those needs and wants. That, we believe, is the best way to thank you for buying Trail's End Popcorn....and to encourage you to continue to support local Scouting.

The Trail's End Caramel Corn, Chocolatey Caramel Crunch, and Gourmet Cheese Corn products do NOT have any added Diacetyl flavoring
